

## SCHOOL BASED EMERGENCY INFORMATION FOR PARENTS

In the case of a crisis event at one of our school facilities, please be aware of the following information;

Ongoing communication will be provided via the school district's Public Information Officer, local media outlets, and callout/email systems.

During an emergency event, the campus is closed to all visitors and parents.

If a facility site needs to be completely evacuated, the predetermined relocation site will be communicated with the community. Relocation efforts may be coordinated in conjunction with the Transportation Department. Parents will be directed to the relocation area for reunification.

Students may not be released until authorization from Law Enforcement or Fire officials. Parents or guardians will need to bring proper identification to the relocation and unification site.
